

Precession of the Equinoxes in Scripture

The Vernal Equinox is the day in the spring when the day and night are exactly the same length. There is an autumnal equinox too.

The Solstices are the two times in Winter and Summer that the Sun stands still, or seems to stand still.

These four days are the holiest days of the year.

Because of the Earth's wobble on its axis, spring equinox precedes backwards 1/72 of a degree each year. This is very significant for it is this process that takes humanity through the various ages.

When an old Age expires and a new Age is born, all of the old paradigms go out. The economy changes. Religion changes. The prevailing global myth (such as Evolution and the Big Bang) shifts.

As each sign has a planetary ruler, when a new age begins, a new God takes over the divine hierarchy.

The Honorable Elijah Muhammad wrote a major piece entitled "Old World Going Out, New World Coming In." He meant the same thing the song by the Fifth Dimension was saying "This is the dawning of the Age of Aquarius."

Like a dying man rallies before he dies, an Age also gushes out all its force before it completely expires. The age of Pisces is dying. It's just about dead. So all the old Neptunian excesses are spewing forth like lava: oceanic water pollution, oil wars, Hollywood celebrity obsession, drugs, drugs and more drugs. Fanatical religious extremism, slavery, imprisonment of people at unprecedented levels, deception and confusion.

The Honorable Elijah Muhammad also wrote an essay he titled "Confusion, Confusion of People." Why twp "confusions?" Because the dying Age o Pisces would confuse the world spiritually and materially.

Jesus' prophecies of the end didn't mean the end of the planet. They referred to the end of the Age.

The stuff that worked in the outgoing Age (e.g., serfdom, feudalism, slavery, capitalism, oil-based economies and fish worship) won't work in the new, incoming Age. But while we are between Ages, in that abyss or no man's land before the new Age fully takes hold everything seems to be helter, skelter. New ideas seem crazy and the old ways just don't work.

In this new Age Uranus will replace Neptune as the planetary energy. Thus the Honorable Elijah Muhammad said "a new god" would appear to provide a "new wisdom."

Before Elijah Muhammad was Elijah Muhammad he use to be John the Baptist. Before that he was Elijah of the Old Testament.

**But they rejected him, so they shall
be brought up [i.e., reincarnated].
Except the slaves [initiates] of Allah,
the purified ones.
And we left him among the later
(or future) generations.**

**Peace be upon the Elijahs
(Ilyasiyn)**

-- Quran 37: 127-130

Here it is right there, the whole ball of wax. Elijah (singular) in Arabic is Ilyas. The Quran uses the word “Ilyasiyn” which means 3 or more Elijahs,

Say what?

Why 3 or more Elijahs? In other places the Quran uses “Ilyas” (one Elijah). But here we have three or more.

Because now the Quran is referring to all 3 incarnations and perhaps more.

The people who rejected him reincarnated and rejected him again!

**And his disciples asked him, saying,
why then say the scribes that Elijah
must first come?**

**And Jesus answered and said unto
them, Elijah truly shall first come,
and restore all things.**

**But I say unto you, That Elijah is
come already, and they knew him
not, but have done unto him
whatsoever they listed. Likewise
shall also the son of man suffer them.
Then the disciples understood that
he spake unto them of John the
Baptist.**

-- Matthew 17:10-13

If John was Elijah then had had to be Elijah reincarnated.

But Elijah’s work wasn’t finished because Elijah-as-John did not restore all things. So while John was Elijah he wasn’t that Elijah. What Elijah? This one:

Behold, I will send you Elijah the

Prophet before the coming of the Great and dreadful day of the Lord.
And he shall turn the heart of the fathers to the children, and the heart of the children to their fathers, lest I come and smite the earth with a curse.

-- Malachi 4:5,6

That's the Elijah who was prophesied to come and who did come in the body of a young baptist, son of a baptist preacher, named Elijah Muhammad.

The major incarnation of Elijah was to come just before the end of the Age, i.e., "before the great and dreadful day of the Lord."

He was supposed to "restore all things." Now that's deep. This little lamb wasn't supposed to restore a thing or two. He was required to restore all things. Now that's a heavy responsibility.

Did little old Elijah Muhammad do it? You bet your fanny, he did!

Way before anyone thought of Blacks as anything more than talking monkeys, Elijah taught that the first humans were Black and that the Black man was the founder of civilization. Today, even white scientists agree that all races migrated from Africa and that the earliest civilizations of Egypt, Ethiopia, India, Sumer, Babylon, Persia and Zimbabwe all were Black.

He restored history and showed that Black people created the sciences of mathematics, alchemy, linguistics, economics, medicine, biology, music, architecture and astronomy.

Today, no true scholar would debate against that.

Elijah restored proper diet and nutrition as well as breast feeding during a time "established" pediatricians said breastfeeding was bad for both mother and baby.

He restored proper health procedures, proper finance practices, proper communications (to this day no one can out communicate his students). He restored the Black woman as the mother of all living way before geneticists came upon the African mother Lucy who is the ancestor of every human alive. He restored proper domestic living to a people shattered by slavery. He restored the science of proper child generation and child rearing. He taught how to create jobs from nothing and restored the principles of fasting to cure most illnesses. Elijah restored divine marital principles to achieve happiness between husband and wife. At the very end of his life he somewhat restored the science of bringing people back from the dead. But like the god Ptah before him, he didn't tell anyone openly how that's done. And, for the record, I'm talking about physical death, not a symbolic death. He restored Religion as Science like it was in ancient times. He restored proper banking and the practice of ESP (but he did this obliquely). He restored the knowledge of how to transform criminals.

Elijah Muhammad restored all things.

He taught genetics to people just out of slavery and he said there was life on other planets.

In the 90's Time Magazine's cover declared "Life on Mars." Fossils from a meteorite proved the existence of extraterrestrial life.

As John was the forerunner, so was Elijah. Elijah said, "After me, there's God."

Elijah incarnated in these later days and while he appeared to be a Black American leader, he was actually the Messenger of Allah to the whole world.

Once Mr. Muhammad has some white men on stage and called them "angels" and "scientists."

When one visited the mosque in New York I was his security for a brief time. And because Mr. Muhammad said so, I would've given my life to protect a man who looked 100% white to me.

Just like Jesus began his mission for none but "the lost sheep of the house of Israel" Elijah began his mission focused on the redemption of Blacks. But by the end Jesus said to take his gospel to all nations and Elijah, too, became a warner and messenger to all people on earth.

What separates a prophet or messenger from your everyday pundit is that the messenger knows the time and what must be done.

Words, like seeds, must be planted in their due season.

Separation is a must

When a Messenger of God preaches an important point, sometimes God tells him (or her) to demonstrate it, like a major theatrical production.

For example, Prophet Muhammad had the Black ex-slave Bilal call people to salaat to demonstrate that one day a Black ex-slave would call people to the proper salaat of Kundalini Yoga.

Elijah taught that separation is a must and demonstrated that in two ways. He taught racial separation and, in the mosques, men and women were separated.

To understand we must refer to the ancient Egyptian science, alchemy.

The stages of alchemical transmutation are symbolized by four colors: black (origin, latent forces). It symbolizes the soul in its original condition, white (minor work, first transmutation), red (sulphur, passion) and gold (spiritual maturity).

Now we can begin to see what Elijah really meant by the "Black" man being the original man and the "White" man being grafted (transmuted). He was talking about alchemy!

Now alchemical work consists of three basic evolutionary processes: separation, purification and cohobation (or recombination).

The real separation had little to do with races or gender. That was the demonstration. The separation was alchemical. The parts of the psyche or spirit had to be separated then purified then reunited. Jungian psychology teaches the same.

Taoist procedures also teach how to separate orgasm from ejaculation to facilitate inner alchemy.

The 72 Sebau Murder Osiris

The ancient masters codified the precession of the Equinoxes in stories like the murder of Osiris (Age of Taurus) by the 72 Sebau (earthbound) friends.

Nasser, the Egyptian president, offered Elijah Muhammad a 72 room palace to demonstrate that he recognized Elijah's significance to the end of the Age.

The Greeks' Story of Precession

In Greek symbolic and metaphorical science the god Uranus ruled, but because he ate his children he was dethroned by Saturn. But then Saturn got dethroned by Zeus (Jupiter).

What gives?

Each sign has a planetary ruler, and the signs precede in reverse. Uranus rules Aquarius. Saturn rules Capricorn. Jupiter rules Sagittarius.

The story is simply saying that first Aquarius was the Age, then Capricorn and then Sagittarius.

The Greeks put Aquarius first and, in code, so did the Hebrews. They said Reuben (signifying Aquarius) was Israel's first son.

Equinoctial Ages also appear in the Book of Daniel. In Chapter 2 King Nebuchadnezzar saw a vision of a giant statue whose head was gold, breast and arms were silver, belly and thighs were brass, legs were iron and feet part iron and part clay.

Each sign's ruling planet has its associated metal. Gold belongs to Leo's Sun; silver belongs to Cancer's Moon; brass belongs to Taurus' Venus and iron belongs to Aries' Mars. This image shows the precession from Leo to Cancer to Taurus to Aries.

For some reason the Age of Gemini was omitted.

Why should we care about the precession?

The change of ages is a big deal. Lots of souls are reincarnating to take part in this wild ride. The effect of this mass immigration to the physical world is overpopulation.

The spiritual aspirant should try to align herself with precession.

The human heart beats 72 times per minute. The human breath rate is 18 breaths per minute. There is a 1:4 ratio between breath and pulse.

Yogic breathing also goes according to one (inhalation) to four (exhalation) ratio.

That breathing rate puts one into trance.

The Dravidian Yugas

As we just saw, the Daniel image doesn't exactly fit with the precession in sequence because the Age of Gemini was left out.

The Book of Daniel's Ages actually belong to another wisdom system, that of the Black Dravidians of India.

In the Dravidians yogic science Ages are called Yugas.

Satya 1,728,000 years Gold

Treta 1,296,000 years Silver

Dvapara 864,000 years Bronze

Kali 432,000 years Iron

Together, the entire cycle of yugas or Great Year of Brahman is called a Kalpa.

The Dravidian tradition says that in the golden (Satya) age the men are as gods. In the silver (Treta) age they lose some of their divinity but are still very advanced. They descend even further in the Dvapara (Bronze) yuga, but understand and can use energies such as psychic energy and nuclear energy. But when they descend into the Kali age of darkness (iron) men become savages who stumble about in complete ignorance and are bound by gross materialism.

The sages say we are living in the Kali Yuga now.

The Arabs call to so-called Pagan days before Muhammad the Jahiliyah or Age of Ignorance. What they don't know is that they never came out of it. They're living in the Kali Jahiliyah now.

Europeans also never came out of their medieval Dark Ages. Their attitudes are the same now, only dressed up in modern jargon.

If Europe was not still in darkness how could there have been Nazi Germany? How could there have been Stalin, Milosavitch, Chochescu? How can the hundreds of years of European enslavement and colonization reflect anything but gross darkness and materialistic ignorance?

How can any people who pollute the water, air and soil we need to survive be regarded as anything but abject savages?

Europe and America remain primitive, savage, animalistic "societies" to this day. They don't solve their internal and external problems through reason, consensus and compromise. No, they throw rocks (called rockets) at each other and they club one another into submission. They toss people into dungeons that they call prisons. They practice human sacrifice which they call abortion and consider themselves to be very, very enlightened for practicing it.

Is it any wonder, then that the world is blind when it comes to the holistic, integrated, unified field science called Religion? Religion is too advanced for people in the Kali Yuga so they pick and choose and practice distorted fragments.

Adding each number of the Yugas together reduces each one to 9. $1 + 7 + 2 + 8 + 0 + 0 + 0 = 18 = 1 + 8 = 9$.

The Hindu rosary beads are 108 in number and the Catholic's are also 108. 108 reduces to 9.

The Muslim dhikr beads are 99 and $9 + 9 = 18 = 1 + 8 = 9$.

The underlying code to all these 9's is that slowing down the breathing takes one's consciousness to the 9th Tree of Life sphere, Auset or meditative trance.

Ra Un Nefer Amen has taught that 1 breath per minute places consciousness into the Golden Age. Three breaths per minute places it into the Silver Age. Eighteen breaths per minute (666) places consciousness into the Kali Age of Ignorance.

Just as Ausar rose from the dead, we are reintroducing the ancient sciences to save and redeem humanity from the perils of air lock of knowledge of self.

In the past it took 35 to 50 years to achieve spiritual maturity. But with modern technology it is now possible to create sages in a much shorter time.

Death of the Age of Taurus in the Quran

The precession from Taurus to Aries is discussed in Quran 2:62 – 71.

And when Musay (Moses) said to his people, "Allah commands that you sacrifice a cow." They said, "Do you make a laughing stock of us?" He said, "I seek refuge with Allah from being of the ignorant."

-- Quran 2:67

After much debate and equivocation,

Then they sacrificed her, but they almost didn't do it.

-- Quran 2:71

The cow represents the Age of Taurus. In that Age nearly every people interfaced with God via a bovine paradigm and symbol. The Egyptians worshipped Osiris symbolized as a black bull. The American Indians worshipped the buffalo. The Israelites worshipped a golden calf and the Induskush of India's symbol for God was the sacred cow.

Egypt was replete with cow symbols. In the Egyptian myth Heru cut off Isis's head and Tehuti replaced it with a cow's head. Het-Heru was symbolized by a cow. The goddess Nut was depicted as a star-filled celestial cow.

In Sumer Ninharsag, the Mother Goddess, was called "the Cow."

The One God expresses Itself in many ways, but the Equinox indicates the appropriate manifestation of God in a particular Age.

When an Age ends people must leave off the old paradigm and get with the new program. Those who don't are called "backsliders."

Moses blew into the ram's horn (Aries) to signify the dawning of the Age of Aries.

Anthropologically, the Bronze Age (Taurus/Venus) yielded to the Iron Age (Aries/Mars).

In Aries Kings ceased to be affectionately nicknamed "our crop," They became warrior-generals. Priests became shepherds, the masses were called flocks (of sheep). Rams, sheep and lambs replaced bulls and calves.

Amen was seen as a ram sacrificed on an alter. Other systems called their man-god a Lamb of God.

He makes all things New

As we enter Aquarius, the old Neptunian and Jupiterian paradigms must yield to Uranian systems. The old prayer formulas, the old economic systems, the old therapies cannot work successfully anymore.

There will be a new heaven and a new earth.
